THE PITCH HOPPER

Once You Hop, You Never
Stop

WHY USE THE PITCH HOPPER?

INCREASE PRODUCTIVITY

The Pitch Hopper's lightweight design enables you to navigate around the roof easier and more confidently.

REDUCE FATIGUE

The Pitch Hopper gives you a comfortable and stable surface to work on.

WORK SAFER

Due to the Pitch Hopper's exceptional gripping force, workers will feel more confident moving around roofs.

LOOK PROFESSIONAL

The Pitch Hopper's sleek design allows you to ditch those unprofessional looking couch cushions.

EXPAND CAPABILITIES

The Pitch Hopper allows you to have a level surface to work on or hold materials and tools.

USED IN OVER 16 INDUSTRIES

- Roof Install / Repair
- Siding Install / Repair
- Gutter Cleaning / Repair
- HVAC Services
- Painters
- Window Install / Repair
- Wildlife Control
- Security Install
- Insurance
- Solar Panel Install
- And Many More

”

This product is truly as good as advertised! I am always looking for ways to make our jobs easier, but more importantly, safer. The Pitch Hopper does just that! I'm thoroughly impressed with the quality of the product!

“

The Pitch Hopper is designed to allow a temporary working surface on asphalt roof surfaces for roof pitches ranging from 9:12 to 12:12. Our superior grip surface uses friction force to keep The Pitch Hopper in place. Our unique wedge shape provides a level working surface for lower pitch and steeper pitch roofs allowing for easy usage and maximum comfortability. To operate, safely place your Pitch Hopper down on the roof surface using the easy grip handles then proceed to kneel or stand on it. To move it simply lift and move to a new location.

We created The Patented Pitch Hopper Roof Wedge to help the workers with the hardest and most dangerous jobs. Built by roofers, we are with you to reduce daily fatigue and increase productivity. Our product can make a difference for you daily, and eventually become something you won't want to go to work without!
